Revised Major Requirements	Cognitive Science
Total # of units required for major, excluding any required Intensive(s)	11
Required Intensive units, if any	0
Total units required	11
Total # of specific courses required (e.g., 101 & 102; 218; one of 225, 226, or 227; 301-	
02; 362) . Please list below and indicate # of units for each.	8
COGS 100 - Introduction to Cognitive Science	1
PSYC 200 - Statistics and Experimental Design	
COGS 211 - Perception and Action	1
COGS 213 - Language	1
COGS 215 - Knowledge and Cognition	1
COGS 219 - Research Methods in Cognitive Science	1
COGS 300/301 - Senior Thesis	1
COGS 311 - Seminar in Cognitive Science	1
Distributional content area units required (e.g. 1 unit at the 200 level in each of the three subdivisions of the field). To the right, list units for any not already included	
above. Below, list the distributional statement.	0
awarer seron, not the distributional statement.	
ELECTIVES. To the right, indicate units not included above. Below, list any structured electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars)	3
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor,	3
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor, with only one at the 100-level and at least one course at the 300-level.	3
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor, with only one at the 100-level and at least one course at the 300-level. Curricular paths are:	3
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor, with only one at the 100-level and at least one course at the 300-level. Curricular paths are: Art, skill, and performance	3
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor, with only one at the 100-level and at least one course at the 300-level. Curricular paths are: Art, skill, and performance Comparative studey of animal and/or machine intelligence	3
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor, with only one at the 100-level and at least one course at the 300-level. Curricular paths are: Art, skill, and performance Comparative studey of animal and/or machine intelligence Decision making, risk taking, and morality	3
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor, with only one at the 100-level and at least one course at the 300-level. Curricular paths are: Art, skill, and performance Comparative studey of animal and/or machine intelligence Decision making, risk taking, and morality Development and learning	3
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor, with only one at the 100-level and at least one course at the 300-level. Curricular paths are: Art, skill, and performance Comparative studey of animal and/or machine intelligence Decision making, risk taking, and morality Development and learning Evolution of intelligent agents	3
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor, with only one at the 100-level and at least one course at the 300-level. Curricular paths are: Art, skill, and performance Comparative studey of animal and/or machine intelligence Decision making, risk taking, and morality Development and learning Evolution of intelligent agents Formal analysis and modeling	3
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor, with only one at the 100-level and at least one course at the 300-level. Curricular paths are: Art, skill, and performance Comparative studey of animal and/or machine intelligence Decision making, risk taking, and morality Development and learning Evolution of intelligent agents Formal analysis and modeling Human-machine interaction	3
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor, with only one at the 100-level and at least one course at the 300-level. Curricular paths are: Art, skill, and performance Comparative studey of animal and/or machine intelligence Decision making, risk taking, and morality Development and learning Evolution of intelligent agents Formal analysis and modeling Human-machine interaction Language and communication	3
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor, with only one at the 100-level and at least one course at the 300-level. Curricular paths are: Art, skill, and performance Comparative studey of animal and/or machine intelligence Decision making, risk taking, and morality Development and learning Evolution of intelligent agents Formal analysis and modeling Human-machine interaction Language and communication Mind and brain	3
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor, with only one at the 100-level and at least one course at the 300-level. Curricular paths are: Art, skill, and performance Comparative studey of animal and/or machine intelligence Decision making, risk taking, and morality Development and learning Evolution of intelligent agents Formal analysis and modeling Human-machine interaction Language and communication	3
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor, with only one at the 100-level and at least one course at the 300-level. Curricular paths are: Art, skill, and performance Comparative studey of animal and/or machine intelligence Decision making, risk taking, and morality Development and learning Evolution of intelligent agents Formal analysis and modeling Human-machine interaction Language and communication Mind and brain	0
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor, with only one at the 100-level and at least one course at the 300-level. Curricular paths are: Art, skill, and performance Comparative studey of animal and/or machine intelligence Decision making, risk taking, and morality Development and learning Evolution of intelligent agents Formal analysis and modeling Human-machine interaction Language and communication Mind and brain Natural and constructed environments	
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor, with only one at the 100-level and at least one course at the 300-level. Curricular paths are: Art, skill, and performance Comparative studey of animal and/or machine intelligence Decision making, risk taking, and morality Development and learning Evolution of intelligent agents Formal analysis and modeling Human-machine interaction Language and communication Mind and brain Natural and constructed environments INTENSIVE(S) required. Below, list any specific required intensive(s).	
electives not included above (e.g., 2 electives at the 200 level and 2 elective seminars) Three electives, chosen as part of a curricular path as approved by the major advisor, with only one at the 100-level and at least one course at the 300-level. Curricular paths are: Art, skill, and performance Comparative studey of animal and/or machine intelligence Decision making, risk taking, and morality Development and learning Evolution of intelligent agents Formal analysis and modeling Human-machine interaction Language and communication Mind and brain Natural and constructed environments

Below, list any specific required intensive(s).	

Cognitive Science

In the fall of 2019, the College begins its new curriculum. All departments and programs have adjusted their requirements for their majors, each building their own transition from the old curriculum to the new. We present this information for the major in Cognitive Science.

For the new major requirements, only the Elective Path has changed.

	old requirements	new requirements
Cogs 100	required	required
Psych 200	required	required
Cogs 211	required	required
Cogs 213	required	required
Cogs 215	required	required
Cogs 219	required	required
Cogs 300/301	required	required
Cogs 311	required	required
Elective Path	4 credits, with at least 1 300	3 credits, with at least 1 300

The class of 2020 will be the last one operating under the old requirements for the major:

class	requirements
2020	old, 12 credits
2021	new, 11 credits
2022	new, 11 credits
2023	new, 11 credits

While we have elected to not incorporate intensive courses into our major requirements, we do not forbid them to be part of your Elective Path. As stated in the Catalogue, you make decisions about elective courses with your major advisor:

The choice of path and electives within the path are to be made in consultation with the adviser at the time of declaration of the major and approved by the Department.

If you have any questions, please feel free to contact the chair of Cognitive Science, John Long: jolong@vassar.edu.
